applicant meets and why, including dates of and institutions where postgraduate training or fellowships occurred.

(3) A statement as to why the physician wants to participate in the program.

(4) The name of each lender from which the applicant has obtained an educational loan, together with a current loan statement that contains the lender's name and mailing address, the applicant's name and loan account number, the outstanding balance of the loan, and the date on which the loan statement was issued.

(5) Whether the applicant has ever been in default or had a judgment lien against the applicant for any debt, and an explanation for each default or judgment lien.

(6) Whether the applicant is willing to sign or has signed a written agreement with the practice setting(s) committing to three years of full-time service in a medically underserved area.

(7) The name and address of each practice setting at which services are to be provided under the program.

(8) A certification under penalty of perjury as to the contents of the application and any attachments, signed and dated by the applicant.

(9) A statement authorizing release to the division of information enumerated in the application and any attachments thereto.

(10) A certification under penalty of perjury, signed and dated by the practice setting's administrative officer, whose name is printed below his/her signature, that the facility has entered into an agreement with the applicant for a minimum of three years; that the applicant can speak a Medi-Cal threshold language; that it will pay the applicant a prevailing wage and not offset any loan repayments by the program against the applicant's salary; and that it is a "practice setting" as defined in Section 2154.2(f) of the code.

(b) Application filing periods will be dependent upon available funding and the number of openings in the program. Every application filing period shall be posted on the board's Web site and shall close not earlier than 30 days after the date on which openings are first posted on the board's Web site. Notwithstanding section 1313.04(a), an application that is either not complete or not received by the final filing date shall not be considered but shall be returned to the applicant.

If (1) a participating physician ceases full-time practice; or (2) both the practice setting and the physician have agreed to termination of the physician's employment, and the physician has been successful in obtaining subsequent qualifying employment within 3 months after termination of employment, loan repayment will be reduced proportionately by the time spent away from qualifying practice during that contract year.

(d) If a physician participating in the program receives a loan repayment of less than \$105,000, 24 percent of the loan repayment amount will be made at the end of the first year, 33 percent at the end of the second year, and 43 percent at the end of the third year.

(b) A physician participating in the program who is unable to complete the required three years of service shall pay to the Medical Board of California, within 365 calendar days after notification by the division, an amount equal to the total amount of loan repayment paid to the physician by the program. Whenever the division has evidence that the physician is unable to complete the required three years of service, it shall notify the participating physician of the amount to be repaid to the division and the date by which the physician shall make that repayment.

(c) A physician or the physician's representative may petition the division for modification of the amount to be paid or repaid and/or the time for repayment. The petition shall be in writing, accompanied by those documents necessary to establish the basis for the petition, and shall be filed with the division not later than 90 working days after the date of the notification. A petition shall be accepted for filing only if it is based on one or more of the following grounds:

(2) The physician was unable to complete the required three years of service due to factors beyond the physician's control.

(3) Both the practice setting and the physician have agreed to the termination of the physician's employment, and the physician has been unsuccessful in obtaining subsequent qualifying employment within 3 months after termination of employment.

(d) The division shall review the petition and supporting documents and shall notify the

physician in writing of its decision within 60 working days after receipt of the complete petition.

(e) Failure to repay the amount due within 365 calendar days as required in subsection (a) above shall constitute unprofessional conduct and is not subject to Section 2314 of the code. It shall also result in the accrual of interest, at prime, on the outstanding balance, reporting of the default to credit agencies, lien(s) on the physician's personal property, and garnishment of the physician's future wages. It may also result in civil damages, including the imposition of attorney fees.

The petition shall explain why the factors contributing to the petitioner's inability to complete the prior obligation no longer exist. A petition shall be accepted for filing only if it is based on one or more of the following grounds:

(1) The physician was terminated without cause.

(2) The physician was unable to complete the required three years of service due to factors beyond the physician's control.

(3) Both the practice setting and the physician agreed to the termination of the physician's employment.

(b) The division shall review the petition and supporting documents and shall notify the petitioner in writing of its decision within 60 working days after receipt of a complete petition. The division shall decide the petition based upon, in its sole discretion, available funds and the cultural and linguistic needs, and demands of the underserved populations, and the petitioner's ability to comply with the terms of the program.
